

TNS2026

CANADA'S FIRST SPATIAL & SINGLE CELL BIOLOGY SUMMIT

TRUE NORTH SPATIAL 2026

Reception Dinner
Sponsorship Package

TRUE NORTH SPATIAL 2026

Reception Dinner

Royal Ontario Museum

March 26th, 2026

7:00 PM - 11:00PM

Join us for a black-tie evening at the Royal Ontario Museum, celebrating the very first North American Summit in Single Cell and Spatial Biology in Canada.

Hosted by Panoramics – A Vision INC., this elegant reception dinner brings together researchers, industry leaders, and innovators who share a passion for advancing spatial and single-cell discovery.

Set inside the iconic ROM, an institution that celebrates scientific exploration and the pursuit of knowledge, this special evening offers a unique setting for meaningful networking, connecting with peers in the same field, and building new relationships within the spatial and single-cell community.

Dinner Sponsors will also have the exclusive opportunity to showcase their technologies to guests, offering a powerful platform to highlight innovation in front of an engaged and aligned audience.

This evening is more than a celebration - it is a gathering of the people and partners shaping the future of discovery.

To inspire,

To enlighten,

To challenge
